Fred,

The complaint is pretty typical in terms of its detail. We plan on denying infringement and serving multiple counterclaims. I don't see any harm in your contacting D&D in light of your favorable relationship; I can only foresee potential benefits to be derived from your conversation, including additional details of the infringement theory. Please let me know if you need guidance or have any questions. I am out of the office this week but will be checking my email periodically. Thanks. George

Hi George,

Received the complaint from D&D. its pretty vague on the infringement. Do you plan to, or have you requested clarification on the exact nature of infringement. Or are you just planning to deny?

Obviously, without knowing the area of infringement, am unable to determine if its a conflict with our patent or not.. However, if you wish, I will call D&D as we are a large customer of theirs and I know the principals. and try to get insight as to the issue. Please advise.

Thanks Fred
